WAYFINDER STUDIO

The Wayfinder Studio is a premier, neuro-inclusive enrichment program designed to provide high-quality, supplemental instruction in a small-group setting for homeschool children with specific learning needs. This program abandons generalized tutoring in favor of explicit and systematic instruction using research-backed curricula. We focus on holistic development, addressing academic needs alongside crucial social, emotional, and life skills. [Learn More](#)

READING CLINICS

Most reading programs focus on exposure—simply reading books and hoping for the best. The Neuro-Innovation Academy is different. We utilize the UFLI Foundations protocol, developed by the University of Florida Literacy Institute. This is a research-proven, "Science of Reading" program designed to provide systematic, explicit instruction.

We teach the 44 sounds of the English language and how to "map" them to print. We stop the "guessing habit" and replace it with surgical-grade decoding skills.

Brain Rewiring: Our protocol uses a high-frequency, multi-sensory routine that literally strengthens the neural pathways used for reading.

Reading Clinics: 12 Weeks
\$550 per Semester

THE TK-6 CORE ACADEMIC HYBRID

The Ultimate Tuesday & Thursday Educational Partnership

You want the rigorous academic standards of an elite private academy, but you fiercely protect the freedom and flexibility of your family's homeschool lifestyle. You shouldn't have to compromise.

At STEAM Academy, our flagship Core Academic Hybrid is meticulously designed to handle the heavy academic lifting. We abandon rote memorization and "teaching to the test." Instead, our expert educators focus on deep subject mastery, Socratic inquiry, and messy, collaborative problem-solving. By utilizing our modular block schedule, you can strategically choose the exact morning or afternoon sessions your child needs, or bundle them for the ultimate full-day experience.

The Morning Core Block (9:00 AM – 12:30 PM)

We handle the heavy lifting so you can enjoy reading and exploring with your child at home without fighting over worksheets. This expert-led block focuses intensely on mastery in ELA, explicit phonics, foundational mathematics, and integrated history.

The Afternoon STEAM Block (1:00 PM – 3:00 PM)

A high-energy, hands-on environment dedicated to Science Labs, Technology integration, and Applied Engineering challenges. Parents receive real-time updates via our Digital Portfolios, allowing you to see your child testing their engineering builds and conducting science experiments as they happen.

The Elementary Investment:

Tuesdays and Thursdays

Morning Core Only 9:00–12:30 \$1,100 semester

Afternoon STEAM Only 1:00–3:00pm: \$650 semester

The Full-Day Bundle (9:00 AM – 3:00 PM): \$1575 semester

(Save \$350 annually)

Allocations:

\$120 Registration +

\$150 Scholar Resource Fee (Curriculum and material)

\$100 Afternoon only

ARABIC IMMERSION

Get ready for an extraordinary semester where language comes alive through play, laughter, and hands-on discovery! Our Arabic Immersion program offers a vibrant, full-immersion world conducted entirely in Modern Standard Arabic (Fusha). Designed specifically for children ages 4 to 7, we welcome true beginners and heritage speakers alike. No prior Arabic knowledge is needed—language is naturally absorbed through exciting daily adventures!
